

SkinMedica® *as seen on...*

Kiss thin lips goodbye with a revolutionary Lip Plump System featuring TNS®

STEP 1: TNS LIP RENEWAL™

A revolutionary multi-functional lip treatment with the rejuvenating strength of TNS, a proprietary mix of human growth factors, improves lip texture, minimizes the appearance of fine lines and increases lip volume over time. Rejuvenating hyaluronic and marine filling spheres seek out moisture to instantly hydrate and plump while a natural tripeptide stimulates collagen for firmer, smoother and better defined lips.

STEP 2: LIP PLUMPER

A clear plumping gloss that enhances lips' natural color by stimulating microcirculation while sealing in moisture.
